

BRIDGE COURSE

A Bridge Course for I Year UG admitted students is conducted every year before the commencement of the first semester classes. The main objective of the course is to bridge the gap between subjects studied at Pre-university level and subjects they would be studying in 12th Standard. The syllabus for the course is framed in such a way that equal importance is given to both UG Courses and 12th Standard. The duration of this course is 10 days. The students are trained in subjects apart from their confidence level. Syllabus includes concepts learnt at the 12th Standard level and also additional concepts which are essential prerequisites for UG courses. The module is aimed at making the students better articulate in English thereby increasing their comprehension level and self-confidence. Bridge Course will help the students to have a smooth transition to the UG courses. The sound grasp of the fundamentals of the UG subjects lays the strong foundation for the entire three years programme.

OBJECTIVES

- To provide adequate foundation in the basic applied science subject, so that Students do not face any difficulty when the regular classes begin.
- This course provides a better transition phase to prepare themselves before the onset of course for first semester.
- To bridge the gap between subjects studied at pre-university level and Subjects they would be studying in U.G. classes.
- Bridge course act as a buffer for new entrance.
- Interactive & active learning students will be equipped with knowledge and the confidence before first year course.
- It is a course conduct by each and every Department by framing their own Syllabus from the duration of this course is 10 days.
