Introduction

www.ntranzz.com

Biochemistry is the study of the chemistry of, and within, biological organisms. It forms a bridge between biology and chemistry by studying the complex chemical reactions and chemical structures that take place and the processes. Biochemistry is considered to be a hybrid branch of organic chemistry which focuses on the physical processes and chemical mechanisms that take place inside of living organisms, but the truth is that the study of biochemistry should primarily be considered neither "fully biology" nor "fully chemistry" in nature. Biochemistry is like the intersection of two domains: a molecule and a cell and all the interactions between them.

One can think of working with both public and private sectors. Companies like Medical Instrument companies, Biotechnology, Food and Drink industries, Research Companies and Laboratories, Sales and Marketing firms, Chemical manufacturing companies, Health and Beauty Care, etc. are always in constant need of people to come work with them. Also some companies in the public sector are good employers of biochemists. Drug Manufacturing Companies, Public Health Engines, Blood Service, Industrial Laboratories, Cancer research institutes, Research Departments, Educational institutes, Environmental Pollution Control, Agriculture and fisheries, forensic Science, Hospital, Public Health Laboratories, Cosmetic industries, etc.

A BIOCHEMIST IS SOMEONE WHO HAS BEEN FORMALLY TRAINED IN THE KNOWLEDGE AND PRACTICE OF BIOCHEMISTRY

**Intellectual Property**

Dr. Lakshmi Narayanan A

**What is Intellectual Property**

- IP means the property which is created with intellect such as inventions, books, paintings, songs, symbols, names, images, or designs used in business, etc.
- Legal rights conferred on such property are called "Intellectual Property Rights" (IPRs).
- IPRs are territorial in nature. For protection of your IP in any country, you seek protection separately relevant laws.

## About the College

The College was founded in the new millennium 2000 by the vision of late Shri.K.M.Govindarajan fondly known as Iyah with a mission to offer higher education in the fields of Arts and Science to the needy and the poor middle class students of this area and make them fully employable and economically self reliant. With a humble beginning of launching an elementary school named Thiruvalluvar Elementary School in the year 1952, Iyah groomed it into a Higher Secondary School and later into a college. Education was his soul & breath.

The college has grown into a full fledged educational hub offering 10 graduate programs, 8 post graduate programs, 5 M.Phil research programs and 1 Ph.D program. The college has been accredited with B+ grade by NAAC and recognised under section 2(f) & 12(B) of the UGC act 1956. The College is permanently affiliated to Thiruvalluvar University.

The college is an associate member of ICT Academy and registered member of NPTEL and Spoken Tutorials of IIT Bombay. The college is also a member of INFLIBNET and NDL.

## About the Department

The Department of Computer Science and Applications was established in the year 2000 with a view to meet the dynamic needs of IT sector all over the world. The department is well equipped with all basic and latest resources. The Department aims to make the students use their intellectual talents for effective and quick acquisition. The Department offers the courses B.C.A., B.Sc., Computer Science, M.Sc., Information Technology and MPhil., Research Programme in Computer Science.

## About the Seminar

An Inter-Collegiate IT Meet in the name of iBlaze is being conducted every year with the aim of bringing out the hidden talents of students and motivating them to develop their individual skills. So far the department has organized Ten Editions of iBlaze successfully. The focus on this 11th edition of iBlaze'18 is to give an awareness of the latest trends in IT industries and prepare the students to face the challenges in the field of Information and Communication Technology. The participants will also get good opportunity to interact with the experts and gain sufficient knowledge in recent trends in IT. As part of this seminar, the events such as Paper Presentation, Marketing, Quiz, Web Designing, Code Blaster, and Poster Presentation are conducted.

**About the College**

The College was founded in the year 1959 in the name of late Dr.K.A.Ganeshaperumal Sastry known as 'Sri' with a mission to offer higher education in the fields of Arts and Science to the needy and the poor middle class students of this area and make them self employable and contribute self service with a humble beginning of launching an elementary school named 'The evergreen Elementary School' in the year 1962, then growing it into a Higher Secondary School and later into a college. Education was its soul & breath.

The college has given the a full fledged institutional for offering 16 graduate programs, 8 post graduate programs, 3 M.Phil. Research programs and 4 Ph.D programs. The college has been accredited with an 'A' grade by NAAC, and recognized under section 2(F) & 12(B) of the UGC act 1956. The College is permanently affiliated to Anna University.

The college is an Associate member of ICT Academy and registered member of NPTSI and Indian Teachers of IT Society. The college is also a member of INSPIRE and IOT.

**About the Department**

A.M.C. College of Arts & Science, Gudalur, Vellore District, Tamilnadu was established in the year 2008 with the Department of Chemistry a department offering program only at the initial level which was upgraded to post graduate department in the year 2007 with the help of grant of the central H.V.E.S. High school authorities to research in chemistry see people flourish to joy like the a flowering country this year. "CHEMISTRY IS OUR LIFE AND FUTURE". The department was upgraded to a Post Graduate Department in the year 2010 to ensure program progression. It was accredited as well other of this rural area. The Department was upgraded to research with UGC act 1956 of Dr.K.M.G. Muthukumar, Chemistry in the year 2014.

**About the Seminar**

The topic chosen for the state level seminar is "Quantum chemistry and spectroscopic identification of organic compound" topic appropriate for the present day conditions. The seminar will be stimulating, fruitful and enriched the participants with new knowledge and skills which will be useful in the professional life. This seminar is an ideal platform for researchers to present their works, exchange views, widen their scope and encourage the research activity. Topics are listed in the following chart.

**Seminar Themes**

- Theoretical quantum chemical calculations.
- Group theory and its applications.
- Spectral Analysis of organic and inorganic compounds.
- New instrumental techniques in the identification of compounds.

**Guidelines for Paper Presentation:**

- Topic: Instrumental Analysis
- Maximum Two participants from each college
- Only one subject from each college for paper presentation.
- All the students participating must ID cards.

**Registration Fee Details**

- Book registration
- Registration Fee Rs. 150/- per Student
- No registration fee for faculty members.
- Registration No, Name and certificate will be provided for all the participants.

### PG AND RESEARCH DEPARTMENT OF MICROBIOLOGY

The PG Department of Microbiology organized a State Level Seminar on "Bioresource Technology" on 27th AUGUST 2018. Dr.D.Gajapathy, Director, K.M.G. College of Arts and Science and Dr.M.Jayashri Rani, Principal, K.M.G. College of Arts and Science, were inaugurated and presided over the function. Dr.D.Manikandan, Head, PG Department of Microbiology welcomed the gathering and Prof.A.M.Rajalakshmi, Assistant Professor, PG Department of Microbiology introduced the chief guest. Dr.S.Vijayanand, Assistant Professor, Department of Biotechnology, Thiruvalluvar University was the resource person and he gave a special lecture on "Bioresource Technology". About 195 students and 24 faculty members were participated from various colleges to the seminar.

In the afternoon session poster presentation was conducted about 59 teams were participated in this event. Dr.S.Vijayanand, Assistant Professor, Department of Biotechnology, Thiruvalluvar University, Dr.J.Hemagnya, Assistant Professor, Department of Microbiology, K.M.G. College of Arts and Science and Dr. Saranya, Department of Microbiology, Sacred Heart college were judged the poster presentation.

At the end of the program valedictory function was held in the presence of the Dr.D.Gajapathy, Director, Dr.M.Jayashri Rani, Principal, Prof.M.megharajan, vice principal, Dr.D.Manikandan, Head, PG Department of Microbiology prizes were distributed to the winners of the poster presentation. At last Prof.N.Sundaresmorthy, Assistant Professor, PG Department of Microbiology proposed a vote of thanks and concluded with National Anthem.

### About the College

The College was founded in the new millennium 2000 by the vision of late Sri K.M. Govindarajan fondly known as 'Jishu' with a vision to offer higher education in the fields of Arts and Science to the needy and the poor middle class students of the area and make them fully employable and economically self-reliant. With a humble beginning of launching an elementary school named Thiruvalluvar Elementary School in the year 1950, Jishu groomed it into a Higher Secondary School and later into a college. Education was his soul & breath.

The college has grown into a full fledged educational hub offering 10 graduate programs, 11 post graduate programs, 5 M.Phil. research programs and 1 Ph.D. program. The college has been accredited with the grade 'B' by MAAC and recognised under section 2(f) & 12(B) of the UGC act 1956. The College is permanently affiliated to Thiruvalluvar University.

The college is an associate member of ICT Academy and registered member of NPTEL and Sorokin Laboratory of IIT Bombay. The college is also a member of IUPUIJNET and NOL.

### About the department

The department of Microbiology was established in the year of 2005. It was upgraded into a PG Department in the year 2017. The department is very anxious in providing quality education to the students. The well equipped UG and PG laboratory and the library have made the teaching-learning process more effective.

### About the seminar

Extensive global research efforts have revealed the novel diversity of extremophilic microbes. Living organisms can be found over a wide range of extreme environmental conditions. Microbial life does not seem to be limited to specific environments. During the last few decades it has become clear that microbial communities can be found in most adverse conditions, including extremes of temperature, pressure, salinity and pH. These microorganisms are called as "Extremophiles". They grow under extreme environmental conditions that are hostile to most organisms. Extremophilic microorganisms are adapted to thrive in such hostile environments. The majority of extremophiles identified are the members of the archaea. Biotremophiles from the Eukaryotic domain can also be found living in extreme conditions as long as there are enough energy sources available to sustain their metabolism. Most eukaryotic extremophiles belong to the algal and fungal categories; some examples are Cyanidium caldarium, red thermophilic alga, Chlamydomonas reinhardtii, a psychrophilic green alga, and Trichoporum antarcticum, and acidophilic fungus. These groups also include Dunaliella salina, a halophilic green alga known to dominate in hypersaline environments.

### Topics for Poster Presentation

1. Plastic Decomposing Microbes
2. Biofuels
3. Electronic Waste Management and the role of Microorganisms
